

Eksempel 1

$$\frac{1}{5} + \frac{3}{5} = \frac{1+3}{5}$$

The diagram illustrates the addition of fractions using rectangular bars. The first bar, representing $\frac{1}{5}$, has 5 vertical sections with the first section shaded light blue. The second bar, representing $\frac{3}{5}$, has 5 vertical sections with the first three sections shaded light blue. An equals sign follows, leading to a third bar representing the sum $\frac{1+3}{5}$. This bar has 5 vertical sections with the first four sections shaded light blue, representing the sum of the two fractions.
