

Eksempel 1

$$\frac{1}{5} + \frac{3}{5} = \frac{1+3}{5}$$

The diagram illustrates the addition of fractions $\frac{1}{5}$ and $\frac{3}{5}$ using rectangular bars. Each bar is divided into five equal vertical sections. The first bar, representing $\frac{1}{5}$, has its first section shaded light blue. The second bar, representing $\frac{3}{5}$, has its first three sections shaded light blue. An equals sign follows, leading to a third bar representing the sum $\frac{1+3}{5}$, which has its first four sections shaded light blue. The plus and equals signs are placed between the bars.
